

Akiri

Science & Patent Information – Retrieval and Analysis

Akiri provides you with professional information in the science and patent areas for a wide range of purposes, including

- Scientific overview
- Prior art and Novelty
- Freedom-to-Operate and Due Diligence
- Validity and Opposition
- Patent family and Legal status
- Competitor, Company and Author
- Citation
- Setting up Watches

Akiri is owned and run by Margareta Elding-Pontén. She has got a PhD in chemistry and fifteen years of practical experience from advanced database searches and literature and patent analyses. Her expertise is from life-science within the chemistry, pharmaceutical and patent areas, but she also covers other science and technical fields. Margareta is an experienced information and patent professional and an acknowledged expert in chemical and Markush (generically claimed compounds) structure searching.

Working approach and tools

Margareta prefers to work close to her customers. Good communication is essential to ensure that all requirements are taken into account and that the searches and analyses are directed in the correct ways and tailor-made for you. This saves time and gives more precise results. Margareta might propose extended or narrower search strategies and contact you with questions to give you the best service. She will always discuss your special requirements to help you in the best way. For certain requests she can work in collaboration with patent firms.

Margareta performs searches by keywords, indexing terms, chemical structures and reactions, patent classification codes and other search fields available in the around 200 scientific databases in her toolset. They cover literature and patent documents and reports within chemistry, life-science and other technical fields.

Education

Doctor of Philosophy in Engineering, Inorganic Chemistry, Lund University of Technology, 1997

Licentiate of Engineering, Inorganic Chemistry, Lund University of Technology, 1993

Masters of Science in Chemistry, Lund University, 1989

Recent employment

Senior Patent Information Analyst, Intellectual Property, AstraZeneca, Mölndal, 2011–2014

Team Manager Patent Information Analysis, Intellectual Property, AstraZeneca, Mölndal, 2009–2011

Patent Information Analyst, Intellectual Property, AstraZeneca, Mölndal, 2006–2009

Information Scientist, Information Science & Library, AstraZeneca, Mölndal, 2002–2006
